From: Trooper Michael Proctor #3863

Subject: Processing of John O'Keefe's Vehicle and Garage Doors at 1 Meadows Ave,  
Canton MA

Case: 2022-112-033

1. On Monday, January 31, 2022, investigators observed video from the Ring cameras affixed to 1 Meadows Avenue, Canton, Ma 02021. The video was observed by utilizing the Ring application on the victim's cell phone. The data in the app showed that two cameras are connected on the victim's account under his email (c) [REDACTED]@yahoo.com. The front door camera and driveway camera.

2. Investigators have observed, on the Ring video, Karen's SUV leaving the garage and traveling out of the driveway at approximately 5:08am on the video. Investigators have not located or observed any Ring video of Karen's SUV arriving home before that, even though multiple witnesses stated she had been driving her SUV with the victim inside on the early morning hours of January 29, 2022. John O'Keefe's Chevrolet Traverse SUV (MA REG (c) ) was parked in the far right corner of the driveway as Karen Read's SUV exited from the garage. From the Ring Camera view, O'Keefe's vehicle is in the top left of the screen. Video reveals as Karen's SUV is reversing out of the garage the rear right taillight comes very close to O'Keefe's SUV.

3. On February 3, 2022 at 11:00AM, Trooper Evan Brandt from Crime Scene Services and I arrived at 1 Meadows Avenue in Canton. Parked in the driveway was John O'Keefe's Chevrolet SUV. Tpr. Brandt documented all sides of O'Keefe's vehicle with photos. No damage was observed anywhere to O'Keefe's vehicle. Tpr. Brandt documented both garage doors with photos. No damage was observed anywhere on the garage doors.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Tpr. Michael D. Proctor", written over a horizontal line.
